

RESICHEM 555 RESINOX

Resichem 555 Resinox is a single pack water based high build acrylic coating. The product is supplied ready to use and is ideal for protecting metallic and cementitious surfaces subject to weathering and corrosion. The product is capable of long term corrosion protection on mechanically abraded or hydro-blasted surfaces.

Typical applications

The product is supplied ready to use and is ideal for Structural steel, external tank surfaces, concrete structures.

Characteristics

Appearance

Single Component:

Thixotropic
acrylic
emulsion

Mixing Ratio

Single Component

Density

1.25

Solids content

65%

Sag Resistance

Nil at 500 microns

Coverage

Brush, roller or spray
applications:

The material should be applied at 2.5m² per ltr at a wet film thickness of 400 microns.

Cure Times

The applied material should be allowed to harden for the times indicated below before being subjected to the conditions indicated:

Touch Dry

| | |
|------|------------|
| 10°C | 3 hours |
| 20°C | 2 hours |
| 30°C | 60 minutes |
| 40°C | 30 minutes |

Minimum overcoating time

| | |
|------|------------|
| 10°C | 3 hours |
| 20°C | 2 hours |
| 30°C | 60 minutes |
| 40°C | 30 minutes |

Maximum overcoating time

Indefinite

Storage life

5 years if unopened and stored in normal dry conditions (15-30°C)

Mechanical Properties

Tensile Strength

Tested to ASTM 412
3.2N/ mm² (2750psi)

Corrosion Weathering

Tested to ASTM D4798
1500 hrs no cracks or blistering

Corrosion Resistance

Tested to ASTM B117
5000 hrs excellent

Elongation

Tested to ASTM D412
230%

UV Resistance

Tested to ASTM D4587
5000 hrs unaffected

Impact Resistance

Tested to ASTM D244
110lb/ins

Heat Resistance

Resistant to dry heat up to 90°C dependent on load.

Quality

All Resimac Products are supplied under the scope of the company's fully documented quality system.

Warranty

Resimac warrants that the performance of the product supplied will conform to the typical descriptions quoted within this specification provided material is stored correctly and used according to the procedures detailed in the Technical Data Sheet for the material.

Health and safety

Please ensure good practice is observed at all times during the mixing and application of this product. Protective gloves and other recommended personal protective equipment must be worn during the mixing and application of this product. Before mixing and applying the material please ensure you have read and fully understood the detailed Material Safety Data Sheet
