

## Resichem 505 Damp Seal

*Primer for sealing concrete surfaces with a high moisture content, up to 25%*

a two component solvent free epoxy primer designed to seal porous surfaces with excessive moisture content. The coating can be applied to cementitious surfaces with a moisture reading up to 25%.

- Solvent free epoxy technology
- Designed for damp surfaces
- Apply to concrete with high moisture content
- Seals and prevents further ingress of moisture
- Apply by brush, roller or standard airless spray
- Consolidates and seals porous surfaces
- Improves adhesion of epoxy or PU top coats
- Tolerant of less than ideal surface preparation

*Concrete wall suffering from weather and UV degradation sealed with Resichem 505 Damp Seal*

*Concrete structure sealed with Resichem 505 Damp Seal prior to Resichem 501 CRSG being applied in 2 coats.*
